Overview

Features

Specifications

Avalon 105 PowerLED, Stainless Steel, 2 x 3W LEDs, Warm White, Frosted Lens, 10-30VDC

The Avalon LED fixture, available in two sizes and two LED colors, can be used for both interior and exterior applications while matching the LED color (Kelvin temperature) with any of our other products within our PowerLED family. With it's high luminous flux light output, this LED fixture becomes the perfect choice for any install.
